

Armin Arlert

Frontend Software Developer

armin.arlert@candidate.demo | Tel Aviv, Israel | github.com/shigoto-demo-armin

PROFILE

Computer Science student specializing in frontend engineering and user-centered web development. Comfortable translating product requirements into accessible, maintainable React interfaces.

TECHNICAL SKILLS

React, JavaScript, TypeScript basics, HTML5, CSS3, REST APIs, Java, PostgreSQL, Git, Testing

EXPERIENCE

Frontend Development Intern

2025 - 2026

Developed React pages and reusable components, integrated API data, added client-side validation, and improved accessibility.

Web Application Project

2024 - 2025

Created a responsive application with authentication, filtered search, and role-aware navigation.

EDUCATION

B.Sc. Computer Science, Tel Aviv University - In progress

PROJECTS

Accessible Job Search UI - Built a job discovery interface with filtering, responsive layouts, and keyboard-friendly interactions.

Portfolio Analytics View - Implemented reusable visual components for presenting project and activity summaries.

Fictional sample CV created solely for the Shigoto demonstration environment.
